Hogarth Riverview Manor is a new 96-bed, single-storey, long-term care facility built and operated by St. Joseph’s Care Group (SJCG) on the Hogarth Westmount site in Thunder Bay.

The facility fully supports a range of programs and services, including conventional long-term care for elderly and physically disabled adults and has the space and staff complement to support specialized Alzheimer’s/dementia care and those residents with high-intensity medical requirements. The facility incorporates “best practices” and is designed to meet, or in many cases exceed, the Ministry of Health and Long-Term Care’s facility design requirements.

In closing, Don stated, “This display of generosity has enabled us to reach our goal of \$2.5 M to furnish and equip the new facility despite a highly competitive fund raising climate in our community. For this we are extremely grateful to our donors, and we thank them most sincerely for their support.”
