

New Titles April 2024

Social Work / National Association of Social Workers

Social Work is the premiere journal of the social work profession, dedicated to improving practice and advancing knowledge in social work and social welfare. Its articles yield new insights into established practices, evaluate new techniques and research, examine current social problems, and bring serious critical analysis to bear on problems in the profession.

Cognitive Behavioral Strategies in Crisis Intervention, 4th ed. / Dattilio, et al.

This most comprehensive guide to CBT with clients in crisis is now in a significantly revised edition with 75% new material. Over 15 years of clinical and research advances are reflected in fully updated chapters on evidence-based brief strategies for helping people cope in highly stressful situations. Vivid, all-new case material illustrates what the interventions look like in action and how to tailor them to individual clients' needs.

Promoting Activity and Participation in Individuals with Serious Mental Illness: The action over inertia approach / Krupa, et al.

This book presents a recovery-orientated, strengths-based approach to address the profound disruptions in daily activities and community participation experienced by those living with serious mental illnesses. With a focus on supported "doing", the Action Over Inertia approach engages individuals in small activity and participation modifications as an opening to more longer term sustained changes.

The Emotional Brain: Lost and found in the science of emotion / Burnett

After his father died of Covid, the author found himself wondering what it would be like to live without emotion. And so, he decided to put his feelings under the microscope—for science. Combining expert analysis, brilliant humour and powerful insights, the author uncovers how, far from holding us back, our emotions make us who we are.
