

New Titles January 2023

***Atomic Habits: An easy & proven way to build good habits & break bad ones* / Clear**

Atomic Habits will reshape the way you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

***The Invisible Siege: The rise of Coronaviruses and the search for a cure* / Werb**

The urgency of the devastating COVID-19 pandemic has fixed humanity's gaze on the present crisis. But the story of this pandemic extends far further back than many realize. In this engrossing narrative, epidemiologist Dan Werb traces the rising threat of the coronavirus family and the attempts by a small group of scientists who worked for decades to stop a looming viral pandemic.

***Telehealth: Incorporating interprofessional practice for healthcare professionals in the 21st century* / Noel & Fabus**

At a time when telehealth is being used more widely than ever before, this new book meets an urgent need for evidence around optimal telehealth training to support interprofessional practice. Simply written, it takes the reader through what they need to know about telehealth, interprofessional telehealth competencies, virtual healthcare, teaching telehealth and virtual clinical examination skills.

***Decolonizing Data: Unsettling conversations about social research methods* / Quinless**

Decolonizing Data explores how ongoing structures of colonialization negatively impact the well-being of Indigenous peoples and communities across Canada, resulting in persistent health inequalities. It exposes the social dimensions of healthcare, and offers a careful and respectful reflection on how to "unsettle conversations" about applied social research initiatives for our most vulnerable groups.

[E 76.7 Q56 2022](#)

***The Ethics Police?: The struggle to make human research safe* / Klitzman**

Protection of participants is an important part of the world of research. In this sensitive exploration of the groups charged with that task, the author elucidates the complexities of human subjects protection and the reasons why it so often seems less-than-optimal. He details the challenges facing Institutional Review Boards (IRBs) today and offers concrete proposals about how they might function better tomorrow.

***EMDR: The breakthrough therapy for overcoming anxiety, stress, and trauma* / Shapiro**

Hailed as the most important method to emerge in psychotherapy in decades, EMDR has successfully treated psychological problems and illnesses sufferers worldwide. With a new introduction, Francine Shapiro presents the new applications of this remarkable therapy and the latest scientific research that demonstrates its efficacy.
