

New Titles August 2023

Teaching Made Easy: A manual for health professionals, 4th ed. / Mohanna, et al.

Fully revised and updated, the fourth edition of this highly respected book builds on the excellent reputation of its predecessors. Pitched at an introductory level with an emphasis on practical tips and application of theory, rather than focusing heavily on scholarly research, its content is designed to be relevant to all healthcare disciplines and continues to provide essential structure, support and guidance.

The Rheumatology Handbook for Clinicians, 3rd ed. / Albert

Joint pain, back pain, and weakness are frequent reasons for people to seek medical attention. This point-of-care guide helps practitioners refine their history and examination, choose appropriate testing, and initiate therapy, where appropriate. Endorsed by the Canadian Rheumatology Association, this edition is an indispensable resource for physicians and other health professionals working with rheumatologic problems.
