

New Titles December 2019

Screening Adult Neurologic Populations: A step-by-step instruction manual / Gutman

Occupational Therapists must be able to appropriately and quickly use a variety of screening methods to pinpoint deficit areas and assess how these have impaired a person's daily life function. This comprehensive book compiles the most common occupational therapy screening methods used with adults with neurological conditions.

WL 141 G98 2019

Cognitive Processing Therapy for PTSD: A comprehensive manual / Resick

This book includes session-by-session guidelines for implementation, complete with extensive sample dialogues and reproducible client handouts. It explains the theoretical and empirical underpinnings of CPT and discusses how to adapt the approach for specific populations and culturally diverse clients.

WM 172.5 R23 2017

Publication Manual of the American Psychological Association, 7th ed / APA

The seventh edition of this manual is the official source for APA Style. With millions of copies sold worldwide, it is the style manual of choice for writers, researchers, editors, students, and educators in the social and behavioral sciences, natural sciences, nursing, communications, education, business, and other fields.

BF 76.7 P83 2020

Transitions in Dying and Bereavement: A psychosocial guide for hospice and palliative care / Victoria Hospice Society

In the new edition of this unique professional resource, hospice and palliative care team members will find the empirical evidence and compassionate advice they need to provide the most holistic psychosocial care possible to individuals who are dying or bereaved.

WB 310 TRA 2017

My Brain Still Needs Glasses: ADHD in adults / Vincent

Accessible and packed with testimonials, this book takes the reader through the clinical symptoms, diagnostic approach and pharmacological treatments available for this neurodevelopmental problem. This guide is also a treasure trove of practical tips and tricks to help adolescents and adults develop effective adaptive strategies to deal with the challenges they face.

WM 165 V76 2008

Psychologically Informed Physiotherapy: Embedding psychological perspectives within clinical management / Porter

A new text for those who need a trusted and comprehensive resource to guide them in applying psychosocial perspectives to their physiotherapy practice. By applying these aspects to screening, exploration and triaging, physiotherapists are better able to identify the origins of pain and barriers to rehabilitation to achieve consistently good clinical outcomes.
