

Dietitian Resources

SJCG Library

Journals

SJCG Library subscribes to several print and online journals. For a complete listing and to sign up to receive the **Table of Contents** to your favorite journals, including those listed below, please click [here](#)

Journal of the Academy of Nutrition and Dietetics

Focuses on advancing professional knowledge across the range of research and practice issues such as: nutritional science, medical nutrition therapy, public health nutrition, food science and biotechnology, foodservice systems, leadership and management, and dietetics education.

Nutrition Action Health Letter

Provides honest, unbiased, science-based advice on nutrition and health. It's the world's largest-circulation nutrition newsletter—bringing the latest nutrition news and advice to more than half a million readers.

Eating Disorders: Journal of Treatment and Prevention

Publishes research on the science and practice related to eating disorders, reflecting current theories that facilitate prevention and clinical treatment.

Databases

SJCG Library offers several databases that are accessible from your ZenWorks Application Portal. We offer health, research, point of care and drug databases. Each database is searchable and where you will find references to published literature, including journal and newspaper articles, government and legal publications, patents, reports, and books. The Library also offers a literature search service to all staff. Request a **literature search** [here](#)

Practice-Based Evidence in Nutrition (PEN) is a dynamic knowledge translation tool developed by the Dietitians of Canada in collaboration with the British Dietetic Association and the Dietitians Australia. PEN provides nutrition practitioners with ready access to timely, current and authoritative guidance on food and nutrition, offering evidence-based answers to the questions encountered in every day practice. PEN® eNews is a monthly e-newsletter created to help dietitians position themselves as leaders in evidence-based nutrition practice featuring articles on new evidence and resources.
